Letter of Guarantee

This letter is being provided for the below listed non-food chemical product in accordance with the requirements of the Food Safety Enhancement Program of the Canadian Food Inspection Agency (CFIA). Copies of this letter and additional product information is available on our website listed in the header above.

Product Name: PolyAspartic Polyurea Coating 100% Solids
Product Code: PSC 3839

Date of Issue: January 18, 2019

Product Use:

This product is safe and suitable for use in food establishments as a construction material used for coating interior surfaces such as concrete for the purposes of sealing, waterproofing or general protection from degradation due to moisture, liquids or physical wear and tear. This product is mainly used as a seamless flooring solution, application on other surfaces is up to the discretion of the applicator. This product is a 100% solids formulation (solventless), resulting in minimal off-gassing during curing and inert properties when fully cured. Once fully cured, the product is non-absorbent, impervious to moisture, cleanable, durable and resistant to deterioration. Thus, it is suitable for use in food processing facilities as it is safe for incidental contact with food.

For product usage instructions, please refer to the product label or technical data sheet.
